

MULTISCREENS

Transparent plastic screens with modern airy design are intended for indoor presentation of your products – placed either on the floor or on the shelves. The system has a high variability since our customers are enabled to choose appearance of the basement of the screen as well as the height of particular floors.

Screen - K	465	-	-
Screen - O	570	260	-
Screen - C	400	300	-
Screen - T	550	350	450
Screen - P	550	275	-

SCREEN LIGHTING AND BRANDING

Illumination with the highlights to raise the attractivity of the products is a matter of course just as an application of commercial stickers to put your brand on the map.
